FASCIST GUNS BATTER HOMES IN CAPITAL

Heaviest Shell Fire of 11-Day Siege Under Way as Insurgents Battle for Foothold in Madrid—Conflicting Reports on Gains Given.

(By The Associated Press)

Violent fighting for control of a crossing of the Manzanares River and "Frenchman's bridge" raged Monday as insurgent troops struggled to gain a foothold in University City of Madrid.

University City was under the heaviest shell fire of the siege, now in its eleventh day.

The main battle lay between the insurgent forces on the other side of the Manzanares and government forces on the Madrid bank.

The civilian population on the fringes of University City was evacuated as shells dropped into the side streets, smashing housefronts and pavements.

Fascist big guns hammered Madrid's defenders with 200-pound shells amid unconfirmed rumors of insurgent Moors and Foreign Legionnaires had reached the Paseo de Rosales in the Capital.

These reports said the insurgents were about to capture the north station. The area was under heavy shellfire Sunday.

The extent of the insurgent penetration, however, was obscured by conflicting advice. An official statement said the Moors and Foreign Legionnaires had occupied a building in University City, north of the Paseo de Rosales.

Monday's bombardment was tremendous. The fascist guns could be heard for 25 miles.

Madrid's defenders, meanwhile, mobilized labor battalions to construct new redoubts against threats of further drives by fascist forces from the North and West.

Fighting intensified along the city's western outskirts after a weekend of bombardments. More than 100 Madrilenos were killed and 300 injured in air raids while fascist artillery ripped paving blocks in the Gran Via, Madrid's main business thoroughfare.

The government air ministry said 20 insurgent planes were destroyed in retaliatory raids on fascist hangars at Avila, Toledo, Torrejon and Navalmaral.

INVADERS WORKING TO STRENGTHEN NEW POSITION

Madrid, Nov. 16.—Foreign legionnaires and Moorish troops, units of Gen. Francisco Franco's Rebel Army, occupied several buildings in the university section of the city early Monday after meeting strong opposition from Loyalist troops. It was the first time Rebel forces have actually occupied any section of Madrid.

With the Rebels expected to make every effort to consolidate their position in order to prevent their being cut off from the main body of troops, bitter fighting was in prospect. It was expected the rebels would attempt soon to reach the Puerta del Sol, the main square of the Capital. It was agreed if they captured this square the entire city will have fallen.

Rebel forces, trying since last Sunday to enter the city, claimed the occupation indicated the cracking of Loyalist opposition in at least one place. The occupation came suddenly when it seemed the battle had settled down to an artillery duel between opposing batteries.

CITY ELECTION VOTE LIGHT

Indications early this afternoon were that there would be a small vote in the special city election being conducted today for the purpose of filling the vacancy in the City Commission resulting from the recent resignation of B. Daniel. A total of 70 ballots had been registered at 1:30 p. m.

The name of J. V. Owen is the only one printed on the ballot. Mr. Daniel resigned to become superintendent of the City's Water and Street departments.

The polls at the City Hall will close at 7 p. m.

STOCK MANIPULATION DENIED BY HEADS OF FIRMS

Washington, Nov. 16.—(P)—The heads of a firm on the New York Stock Exchange have met Securities Commission charges of manipulating shares on the "Big Board" with an observation that "it seems the Commission thinks there is a manipulation whenever a stock goes up or down."

FEDERAL FARM BUYING FOR TENANTS STARTS

Washington, Nov. 16.—(P)—Working secretly, the Resettlement Administration has started a Federal program designed to make farm owners out of 1,000 tenants in 10 southern states.

M. E. Gilford, assistant to Administrator Rexford G. Tugwell, said the move was kept quiet in order to acquire farm lands at normal values.

It was feared the price of lands would soar if its project became known in advance.

With about 74,000 acres of farm land acquired in the 10 states, Gilford said 74 tenants already had been established on small farms in North Carolina and 59 in Tennessee.

President Roosevelt said in his campaign speeches that Federal action on the farm tenancy problem could be expected.

The acreage acquired and number of prospective tenants by states includes: Louisiana, 5,095 acres, 100 tenants; Oklahoma, 4,737 acres, 65 tenants; Texas, 10,619 acres, 200 tenants; Arkansas, 7,148 acres, 100 tenants.

LEWIS OUSTER THREAT FADES

NEW SENTIMENT AGAINST EXPULSION HEARD AS A. F. L. MEET OPENS

Tampa, Fla., Nov. 16.—(P)—Growing sentiment against expulsion of John L. Lewis, president of the United Mine Workers and his rebel allies from the American Federation of Labor developed Monday with the start of the Federation's annual convention.

Many delegates cried for expulsion, even if it meant a long and bitter war, but William Hutcheson, heavy president of the powerful Carpenters Union, said "they're already out," and asked "what's the use locking the door if you're not afraid of anyone on the outside?"

Some leaders talked of approving the rebel's suspension, directing the Federation's executive council to continue peace efforts and clothing the council with power to expel if these efforts are unsuccessful.

Despite his fiery speeches last week against the Lewis rebellion, William Green, Federation president, said the council's peace committee still was ready to meet the rebels.

ROGERS-PICKFORD PLANS FOR WEDDING ANNOUNCED

Olathe, Kan., Nov. 16.—(P)—Bert Rogers, father of Buddy Rogers, motion picture star and orchestra leader, said Monday the engagement of Miss Mary Pickford and his son would be announced Friday at Hollywood.

The elder Rogers, who is Johnson County Probate Judge, said Buddy and Mary divulged the news in a telephone conversation with him and Mrs. Rogers early this morning.

Mrs. Rogers will leave by plane for Hollywood Tuesday morning, Judge Rogers said, adding he would be unable to make the trip.

Judge Rogers said that so far as he knew no wedding date had been set. Judge Rogers previously has said Buddy had promised that he could perform the wedding ceremony whenever Buddy was married.

GAS TAX COLLECTION IN TEXAS INCREASES

Austin, Nov. 16.—(P)—The Comptroller's Department reported gasoline tax collections totaled \$3,709,198.31 in October, or \$473,657.47 more than in the corresponding month last year.

The figure was a little less than that for September of this year, when \$3,896,014.49 was collected, but the drop was seasonal. September, 1936, showed an increase of \$445,856.41 over September, 1935.

The total increase for September and October was \$919,513.88. Collections for the fiscal year ending Aug. 31, 1936, totaled about \$41,000,000, or \$4,000,000 more than the previous year.

The gains were attributed chiefly to improved business conditions and better enforcement of the tax law.

License To Wed.

Marriage licenses were issued during the past week from the office of the Wilbarger County Clerk to the following couples: Roiel Lee Lucas and Miss Alice Rogers; J. Frank Richards and Mrs. Mai Matthews; Ray Wilton Russell and Miss Grace Leona Smith; J. A. Seawright and Miss Valera E. Lacey.

Goes to Court

After rehearsing their parts with repeated separations and reconciliations, Film Actress Arline Judge, above, 24, and her director-husband, Wesley Ruggles, 48, were reported at last really headed for the divorce court. Hollywood observers say the couple have agreed, if there is a divorce, to have their son, Wesley, Jr., 3, share his time between them.

OIL HEIRESS' HUSBAND DIES

DAVID BROOKS PLUNGES 14 STORIES IN FALL FROM WINDOW

New York, Nov. 16.—David Brooks, nephew of Nancy, Lady Astor, and son-in-law of James A. Moffett, vice president of the Standard Oil Company of California, plunged to his death early Sunday from a 14th floor Park Avenue apartment.

Brooks lost his balance, police said, while opening a window in his bedroom. His bride of only four months, the former Adelaide Moffett, heard her husband scream while she was in their living room.

She ran into the bedroom and collapsed. After telling an incoherent story to Detective Charles Watkins, who called the death an accident, she was put to bed under care of a physician.

The 26-year-old broker and his wife had just returned home from visiting friends at about 3 a. m. Taxi drivers and others in the street saw the body strike the sidewalk. Death was instantaneous.

CANNING MAY HURT FRESH FRUIT INDUSTRY, BUREAU SAYS

Washington, Nov. 14.—(P)—A danger that grapefruit canning ultimately might interfere with the fresh fruit industry was reported today by the Bureau of Agricultural Economics.

Although growers have seen canning as a means of relieving their surplus production, the Bureau said, "there is some question as to how far canning can go before it has the further effect of reducing the demand for the fresh fruit."

Where the canned product comes in direct competition with fresh fruit, it said, some of the benefit from diverting to the canning plant will be lost. Canning will be a relief to the industry, it added, only to the extent that "it simply lengthens the marketing season."

Position of Treasury.

Washington, Nov. 16.—(P)—The position of the Treasury on Nov. 15: Receipts, \$8,488,484.20; expenditures, \$14,082,951.72; balance, \$1,575,536,917.76; customs receipts for the month, \$14,497,330.96. Receipts for the fiscal year (since July 1), \$1,517,008,907.16; expenditures, \$2,597,778,104.14, including \$1,023,032,156.39 of emergency expenditures; excess of expenditures, \$1,080,769,196.98; gross debt, \$33,790,496,494.16; a decrease of \$1,545,768.00 under the previous day; gold assets, \$11,142,550,724.99.

EMPLOYERS GET SECURITY ACT BLANKS IN VERNON

Distribution of forms, known as "Employers' Application for Identification Number," to be used in the Government's social security program, began Monday morning, according to an announcement by John B. Hardin, Vernon postmaster. Approximately 550 forms were distributed in Vernon.

"Willingness on the part of employers to cooperate to the fullest extent in this program has already been evidenced by the fact that a number of the forms had already been filled out and returned to the post office before noon Monday," stated Mr. Hardin.

"It is requested that employers fill out the blanks with a typewriter or in print," he added, "in order that the work of the security program administrators may be facilitated."

The blanks may be mailed free of charge to the postmaster, may be delivered to the post office, or may be given to mail carriers who will return them to the post office. An effort is being made to have all forms returned not later than Nov. 21.

RANGERS STOP WICHITA RACES

Wichita Falls, Nov. 16.—The recently opened dog race track in Wichita Falls was closed Sunday by Texas Rangers. Capt. W. V. McCormick, at the close of the first race, McCormick stated that Sunday racing was a violation of the laws of Texas and would not be tolerated.

Wilson Gray, president of the North Texas Sportsman's association, operators of the track, said the track would be closed indefinitely but would be opened for a future meet at an undetermined date. Admissions were refunded to more than 1,000 spectators, the largest gallery of the five-day run.

SECOND VICTIM DIES AS RESULT OF AIR CRASH

Syracuse, N. Y., Nov. 16.—(P)—A second death resulted Monday from the crash of an airplane taking a New Hampshire man to the bedside of his dying father.

Henry Nadeau, 45, of Nashua, who had chartered the plane for a flight to International Falls, succumbed Monday morning.

Miss Priscilla Murphy, 16, Brooklyn, Mass., high school student, died in flames that swept the wreckage when the plane smashed into a snowdrift Sunday night in a snowstorm.

John H. Shobe, veteran Boston pilot, was seriously burned in the crash and was reported by hospital officials to be in a "very critical condition."

ITALY AND BRITAIN TALKS MEDITERRANEAN AGREEMENT

London, Nov. 16.—(P)—A lengthy conference between Foreign Secretaries Anthony Eden and Dino Grandi, Italian Ambassador, led observers to believe here the ground was being prepared for an Anglo-Italian "gentlemen's agreement" in the Mediterranean.

The conference followed reports from Rome that Count Galeazzo Ciano, Italian Foreign Minister, would come to London soon to follow up Premier Benito Mussolini's suggestion for an understanding between the two countries. Grandi was expected to leave shortly for Rome to report to Mussolini personally.

JOURNALISTIC GROUP SEEKS BROAD NEW ORGANIZATION

Dallas, Nov. 16.—(P)—Sigma Delta Chi, national journalistic fraternity, sought Monday to establish a broad organization of journalists on a nationwide basis as a meeting ground for editors, publishers, reporters and other related groups.

The fraternity's annual convention, which closed Sunday, adopted a resolution "empowering the executive council 'to set up such committees as it may deem necessary to investigate and study the needs of its alumni and of men generally engaged in journalism' and to draft proposals considered necessary for the broadening of its activity in the interest of men active in journalism."

TRUCK OVERTURNS WITH 102 BOXES OF DYNAMITE

Dubois, Pa., Nov. 16.—(P)—Ferris Millard said he experienced the most exciting moments of his 34 years as his truck carrying 102 boxes of dynamite, weighing 50 pounds each, overturned on the highway two miles east of Dubois.

The dynamite spilled out but there was no explosion and Millard was unhurt.

Where Ro at Plans Cruise

South American countries are jubilant with announcement of plans for President Roosevelt's trip to the Pan-American Peace Conference convening in Buenos Aires, Argentina, Dec. 1. Plans call for Roosevelt to leave Charleston, S. C., Nov. 17 or 18 on the cruiser Indianapolis, for Trinidad, about 1,800 miles distant. The route passes near the Leeward and Windward islands, where the president hoped for some deep sea fishing. After Trinidad, comes the 3,200-mile cruise to Rio de Janeiro, Brazil, then the final 1,100-mile lap to Buenos Aires. The 21 countries participating in the party are named on the map.

COURT OPENS FIFTH WEEK

FOUR GET PENITENTIARY SENTENCES ASSESSED ON GUILTY PLEAS

The fifth week of the October term of Forty-sixth District Court in Wilbarger County was opened Monday morning with a few civil cases scheduled for trial. The term will be completed next week.

Four penitentiary sentences were assessed Saturday by District Judge W. N. Stokes in cases where the defendants waived trial by jury and pleaded guilty. "Sonny" Lamb received a 10-year sentence on an indictment for robbery with firearms. Two-year sentences were given Freeman Albee, Grady Lester and D. C. Hutton, charged with burglary.

Alice Jackson, Negroes, received a burglary case. Divorces have been granted in the following cases: Johnnie Burnett vs. Harvey Burnett; Valeria Holcomb vs. Patrick E. Holcomb; Aleta Samuels vs. Garner Samuels; Rhoda Boyd vs. B. H. Boyd; Ethel Rhodes vs. B. H. Rhodes; Mae Barnes vs. Fred Barnes; Elsie Lee Stokes vs. Roy Stokes.

C. OF C. BANQUET PLANS TALKED BY COMMITTEES

A joint meeting of the committees for the annual banquet of the Senior and Junior Chambers of Commerce of Vernon has been called at 10 o'clock Tuesday morning, according to an announcement by L. A. Wilson, secretary. Plans for the annual banquet of the two chambers, to be held Jan. 12, will be discussed in the meeting which will be held in the offices of the Chamber of Commerce in the courthouse.

PLAINVIEW MAN BUYS STUDIO FROM KRAMER

Guy Ash of Plainview has purchased the Kramer Art Studio from L. P. Kramer and is now conducting the business under the name of Ash Studio. The establishment is located on East Wilbarger Street.

Mr. Ash was in the photographic business at Plainview more than 10 years. He recently returned from California after making a special study of high grade portrait work. He is a former resident of Vernon, having been employed by Mr. Kramer about two years before leaving here 15 years ago.

Equipment of the Kramer studio has been supplemented with special equipment brought here by Mr. Ash. Numerous improvements about the studio, especially in lighting effects, have been made in the past few days.

Mr. Ash will be assisted in operating the studio by his wife.

Burns Prove Fatal

Dallas, Nov. 16.—(P)—Funeral services were planned at Denison Monday for H. Hussey, Missouri-Kansas-Texas railroad employee, who died Sunday of burns suffered in a gas explosion in his home here a week ago. Mrs. Hussey also was burned seriously.

Good-Natured.

Brooklyn, Mass., Nov. 16.—(P)—A good-natured as Policeman William Wilson is, he hopes Brooklyn High School fraternity scavenger hunts are at an end. Three boys and three girls, each assigned to get four hairs from a policeman's chest, sought out Wilson. Wilson was willing to help and shaved his chest. He scorned scissors, too.

COLLECTION OF INFORMATION ON ACCOUNTS FOR 26,000,000 WORKERS PRESENTS BIG TASK

Washington, Nov. 16. (A-P)—The Federal government began Monday the most gigantic task of its kind ever undertaken—the job of setting up social security accounts for some 26,000,000 workers.

From 45,000 post offices throughout the country, postmen set out with forms to be delivered to 5,000,000 business establishments.

Thus began the unprecedented operation of collecting the basic data for the old age pension system applying to workers in factories, shops, mines, mills, offices, stores and other such business establishments.

The time for the creation of the mountains of files of information was growing short, for the old age pension taxes—starting at one cent on each dollar of workers' earnings up to \$3,000 a year, and one cent for every dollar of the employers' payrolls—will go into effect Jan. 1, 1937.

The taxes will increase gradually until, beginning in 1949, they will be three per cent of wages and three per cent of payrolls. The money is being collected to finance pensions, ranging from \$10 to \$85 a month, to which the workers will be entitled on reaching age 65.

Vincent M. Miles, member of the social security board, explained the information-gathering operation which the government began Monday. In a speech prepared for delivery before a conference of governors at St. Louis, he said:

"Although this undertaking is of unprecedented proportions, the plan worked out with the 45,000 post offices is quite simple.

"Beginning Monday, post offices will distribute to employers a form known as the 'employers' application for identification number, this form will ask of the employer only seven simple questions, answers to which will enable the Post Office Department to know how many employees' application forms to deliver to each employer."

The questions are: The business name; description of the nature of the business; address; approximate number of persons employed; principal products of the manufacturing firm; whether the establishment is a branch or subsidiary concern; the name and address of headquarters.

"Then, beginning on Nov. 24," Miles said, "post offices throughout the country will deliver to employers, through their employers, forms known as 'applications for account number.' The employee's application is a simple form asking a few questions such as name and address of the worker, name and address of his employer, the date and place of his birth, and father's and mother's name."

"On the return of this information to the post office, a social security account will be set up for each person eligible and he or she will be furnished a card—comparable to an insurance identification card—certifying that an account has been set up and bearing the number of the employee's social security account so as to make it easy for the worker to find out at any time just how his or her account stands."

TEXAS OIL ALLOWABLE IS HIKED BY BOARD ORDER

Austin, Nov. 16.—(P)—The Texas Railroad Commission announced Monday it had increased the State's allowable oil production 18,539 barrels daily, effective as of last Saturday.

Increases by fields follow: Cayuga, up 2,300 barrels to 7,500; Van, up 5,000 to 31,200; Plymouth, up 2,500 to 11,450; McElroy, Tipton County, up 2,500 to 4,650; East Howard, up 600 barrels to 7,510; North Ward, up 3,288 to 8,500; 5,800-foot Frisco wells in Saxel field, up 15 barrels per well to 160 barrels per well.

Keystone, Winkler County, up 815 barrels to 1,430; Foster field, up 233 barrels to 538.

The Commission said the increases were necessary to keep domestic and foreign purchasers from going to other states to buy oil which they needed.

Commission engineers estimated the State's new allowable was approximately 1,149,000 barrels daily, about 30,000 above the market demand estimate of the United States Bureau of Mines.

CHINESE REPORT AIR RAID BY JAP PLANES ON FORT

Peking, Nov. 16.—(P)—Eight Japanese fighting planes bombed provincial fortifications in Eastern Suiyuan Province in an attack near Tachin, Chinese sources reported Monday.

Three thousand infantry troops, composed of Manchoukians and Mongol irregulars, assisted in the assault against Suiyuan defenders, the reports declare.

The attack was reported to have occurred Saturday at the Suiyuan city 125 miles northwest of Kalgan. Menger accounts which reached six separate drives, combining infantry, aviation, heavy artillery and tanks.

Suiyuan provincial troops repulsed the offensive, the reports added, inflicting "heavy losses" on the invaders.

CROWELL BUSINESS MEN PLAN CHRISTMAS ACTIVITIES

Crowell, Nov. 16.—(P)—The Farmers and Business Men's Association will hold its first meeting since July 29 at the First Methodist Church of Crowell Monday night, according to Amos W. Lilly, president.

Plans will be launched for the Christmas work, the president stated, and the election of new officers for the association will also be discussed.

Former Royal Flying Corps ACE HELD FOR BURGLARY

Auburn, Calif., Nov. 16.—(P)—Joseph B. Rogers, 33, identified by a former Royal Flying Corps officer as a war-time ace aviator with six enemy planes to his credit, was held Sunday on charges of burglarizing a business establishment.

Police Chief J. L. Shannon said Rogers had admitted taking four watches and other articles of jewelry. He had been employed in a PWA project here.

HOLIDAY MENU COST TOTALED

PRICES ON THANKSGIVING FEAST FOR FAMILY AT 1935 LEVEL

Chicago, Nov. 16. (P)—Those who pay the nation's grocery bills may find cause for thanksgiving this year when they total up the cost of the 1936 holiday feast.

If the relationship of Monday's wholesale food prices with those of mid-November 1935 is maintained for the next 10 days, the Thanksgiving dinner will cost no more than last year, the drought of the past Summer notwithstanding.

About half the items that go into the typical holiday menu are priced lower than a year ago in Chicago wholesale markets. In some cases the discounts run from 10 to 50 per cent.

Included in the list of cheaper foods is turkey, which accounts for a big portion of the Thanksgiving day dinner cost. Other kinds of poultry, including geese and ducks, are lower also.

Out of 20 food items listed in the wholesale markets, 19 are quoted lower than a year ago, seven higher and three are virtually unchanged.

The foods selling lower include dressed turkeys, ducks and geese, celery, cucumbers, lettuce, onions, peas, lard and flour. Those quoted higher include eggs, potatoes, apples, oranges, tomatoes, cheese, and some types of nuts. Little difference is evident in butter, beans and cranberries prices at wholesale.

M'GRADY SEEKS NEW PROPOSAL

STRIKE SETTLEMENT TO BE DISCUSSED WITH UNION LEADERS

San Francisco, Nov. 16. (P)—Assistant Secretary of Labor Edward F. McGrady sought another peace proposal Monday to present to employers in the Pacific Coast's far-reaching maritime strike.

The Labor Department's ace trouble shooter called a meeting with leaders of sailors and engine room workers, believed by observers to be the key unions in the peace efforts.

He indicated he hopes to obtain at least a tentative acceptance of proposals "along lines suggested by employers" who rejected McGrady's negotiation formula Saturday.

As the settlement attempts continued here, mayors of several American port cities sped towards Washington for a conference at which it was expected the strike would be discussed with Federal officials.

Mayor Angelo J. Rossi of San Francisco and Mayor F. H. La Guardia of New York both said they were departing from their respective cities to help bring about a settlement.

Sympathy walkouts at eastern and gulf ports centered on the trans-Atlantic liner Washington at New York.

Rank-and-file seamen leaders, who picketed the liner by airplane and motor launch when it docked Saturday, claimed the deck and engine room crews would refuse to sign on for the scheduled sailing Wednesday. The claim was disputed by Captain Schuyler M. Cummings, marine superintendent of the International Mercantile Marine.

"GOD'S OWNERSHIP" IS THEME OF REVIVAL TALK

A sermon on "God's Ownership," one of a series on "Ships Which Lead to God," was given by Dr. H. Hargrove Sunday in opening a stewardship revival at the First Baptist Church. Other services will be held each evening this week except Saturday at 7:30 o'clock in the church auditorium.

In opening the revival Dr. Hargrove said, "Stewardship calls upon man to use his life and all his possessions for God. At the same time this is his best guarantee that the exerting arms of God are about him to keep him." The pastor defined a steward as one "who has in his possession some thing which is owned by another with the responsibility to use it to the best interest of the owner."

MORE THAN HALF OF STATE'S DEMO FUNDS FROM 6 COUNTIES
Austin, Nov. 16. (P)—Roy Miller, State campaign director, said Sunday six Texas counties contributed more than half the approximate \$275,000 raised by the State Democratic organization for the Roosevelt-Garner campaign.

Pre-election contributions of Dallas, Tarrant, Harris, Bexar, Nueces and Travis counties totaled \$150,531, but contributions made directly to national headquarters and not yet recorded at state headquarters will increase the six-county total, he said.

Miller said many smaller counties exceeded their quotas and money has begun to roll in again in the wake of a new drive for \$50,000 to help wipe out the half million dollar deficit of the national committee.

Union Hearing Reset.

Galveston, Nov. 16. (P)—Hearing on the injunction sought by officials of the International Seamen's Union to restrain certain members of the union from interfering with the business agent of the union here was reset until Wednesday morning by Judge J. C. Canty in 10th District Court Monday. Due to the fact that Owen D. Barker, counsel for the union, is engaged in a similar suit at Houston.

The Santa Claus on the 1936 Christmas Seal is a modern one. The funds from the sale of seals finance the modern campaign against tuberculosis waged by the National Tuberculosis Association and 1,981 affiliated state and local organizations.

He made the announcements before leaving for Kerrville where he will meet Gov.-Elect Walter Huxman of Kansas for a deer hunt.

C. E. McGaw of Longview was appointed Judge of the One Hundred Twenty-fourth District Court to succeed Judge Will C. Hurst of Longview, resigned, and Trav Lewis of Fort Worth was named successor to Wallace Reilly on the State Planning Board. Reilly resigned to become a member of the new Unemployment Compensation Commission.

Emmett C. Hill of Angleton, who did not seek re-election, resigned from the 44th Legislature. Paris Smith of Bay City will be his successor in the next Legislature.

DELEGATES TO FARM MEET ARE SELECTED HERE

In joint session Saturday members of the Wilbarger County Agricultural Council and the Home Demonstration Council named delegates to a meeting of the Texas Agricultural Association which will be held in Fort Worth Dec. 2-4. C. M. Randel was elected delegate and C. D. Haney alternate.

A committee was also appointed to select an outstanding farm home for an award to be announced later by the magazine, "Progressive Farmer." Fifteen members of the Agricultural Council and 25 members of the Home Demonstration Council were present.

Daily Markets

(By Associated Press Leased Wire)

COTTON

New York, Nov. 16. (P)—Cotton futures opened barely steady, 5 lower to 1 higher with steady Liverpool pool cables off by liquidation and hedge selling. Dec. 11.73; Jan. 11.58; March 11.57; May 11.53; July 11.49; Dec. 11.02.

Initial offerings came to a large extent from the South, including selling by the co-operative, spot houses and New Orleans, there was also some liquidation through wire houses.

Further December liquidation was reported but it was absorbed by trade price fixing partly against sales of later months.

Killing frost in the eastern belt were believed to have put an end to growth of late cotton in some sections but they came later than normal. The market turned steady on trade and foreign buying. March recovered from 17.56 to 11.61 and prices at the end of the first half hour were ruling net unchanged to 2 points higher.

New Orleans.

New Orleans, Nov. 16. (P)—Cotton futures opened barely steady today, with distant positions showing small losses and net months net unchanged.

Foreign markets were better, but induced little buying at the first call, and under the depressing effect of liquidation and hedge selling options slipped off.

Dec. opened at 11.70, Jan. at 11.57, March at 11.52 and July at 11.49. In the first half hour prices hovered within a few points of these levels.

A sudden drop in exports in the last week occasioned comment in the trade. Professionals were watching the daily exports closely to see if it was but a temporary lull in the world demand for American cotton.

Temperatures dropped over the week-end. Frosts were reported over a wide area of the belt.

Futures closed steady at net advances of 10-15 points.

ALLRED LISTS BUSINESS BEFORE DEER HUNT TRIP

Austin, Nov. 16. (P)—Gov. Allred Monday announced two appointments, the veto of a local bill affecting Callahan County and the resignation of a member of the Legislature.

He made the announcements before leaving for Kerrville where he will meet Gov.-Elect Walter Huxman of Kansas for a deer hunt.

C. E. McGaw of Longview was appointed Judge of the One Hundred Twenty-fourth District Court to succeed Judge Will C. Hurst of Longview, resigned, and Trav Lewis of Fort Worth was named successor to Wallace Reilly on the State Planning Board. Reilly resigned to become a member of the new Unemployment Compensation Commission.

Emmett C. Hill of Angleton, who did not seek re-election, resigned from the 44th Legislature. Paris Smith of Bay City will be his successor in the next Legislature.

DELEGATES TO FARM MEET ARE SELECTED HERE

In joint session Saturday members of the Wilbarger County Agricultural Council and the Home Demonstration Council named delegates to a meeting of the Texas Agricultural Association which will be held in Fort Worth Dec. 2-4. C. M. Randel was elected delegate and C. D. Haney alternate.

A committee was also appointed to select an outstanding farm home for an award to be announced later by the magazine, "Progressive Farmer." Fifteen members of the Agricultural Council and 25 members of the Home Demonstration Council were present.

Fire Calls Answered.

Two calls were answered by the Vernon Fire Department Monday morning. A blaze in Roy Oliver's automobile was extinguished before the arrival of the chemical truck. Shortly before noon firemen extinguished a small blaze caused by a short in electric wiring under the kitchen floor at the home of B. T. Juvenal, 3111 Marshall Street.

BURIED MINERS FACE DROWNING

FIFTY RESCUERS TUNNEL IN FRANTIC EFFORT TO SAVE TWO MEN

Superior, Mont., Nov. 16. (P)—Two miners trapped by a cave-in, faced the possibility of drowning in their underground tomb Monday while 50 rescuers worked frantically in a dangerous tunnel hoping to bring out at least one of them alive.

A report from the Windfall placer gravel tunnel where Antoine Gustafson, 40, and his partner, Xear Gustafson, 15, were caught Saturday night, said water from a spring in the mine was being dammed up by the cave-in.

Sheriff Roy Charette, directing the search, kept faith, however, saying some of the men told him they had heard sounds indicating one or both of the men was alive. One may have been crushed by the rock and dirt which collapsed, Charette said.

Volunteers poured into the tunnel, three of them wedged in digging at the pile of debris and passing out the dirt to others who formed a bucket brigade.

YEAR-END DIVIDEND IS DECLARED BY DU PONT FIRM

Wilmington, Del., Nov. 16. (P)—Directors of E. I. Du Pont de Nemours & Co. Monday declared a year-end dividend of \$2 a share on the common stock. In the preceding two quarters payments of 90 cents quarterly and 70 cents extra were made.

For the first three months of this year only the 90-cent quarterly dividend was paid. On Nov. 9 General Motors declared a dividend of \$1.50 a share while in the preceding two quarters only 75 cents a share had been paid.

Going Forward

WITH OUR FARMER FRIENDS

The farm situation in America is undergoing a mighty change. Our farms produce more food than our people can eat and other nations are buying less of us.

Finding new industrial uses for our farm products is one answer to the problem. Controlled production, diversification, and soil conservation, give other answers. A new future is in the making for the farmer.

This bank is taking an active interest in agricultural progress. We are working in every possible way to promote greater prosperity for the farmers of this section. Let us cooperate with you.

Mrs. Eldridge Is Guest Speaker of Tolbert P-T. A.

Mrs. J. E. Eldridge was guest speaker at a meeting of the Tolbert Parent-Teacher Association last week at the school. Mrs. Eldridge made an inspirational talk on "Friendliness," stating that friendship is not something that "just happens," but something which is created.

Mrs. Y. H. Babasin of Vernon was another guest appearing on the program. She sang a solo, "A Little Child Shall Lead Them," with Mrs. Eldridge as piano accompanist. Other numbers on the program were an accordion solo by Alice Moore; a poem, "A Friend," by Mrs. Chester Brantley; and the devotional reading by Mrs. Jack English.

Mrs. Frank Moore was elected delegate to the annual convention of the Texas Congress of Parents and Teachers which opened Monday in Fort Worth for a three-day session. A report of the recent meeting of the Wilbarger County Council of Parent-Teacher Association was given by Mrs. W. F. Moore.

Pamphlets on "Tuberculosis" were distributed to the membership, and all were urged to cooperate in a contest being sponsored by the Wilbarger County Tuberculosis Association. Attention of the members was called to a School Visitation Day to be held next Friday. All parents were asked to visit the school on that day.

Refreshments were served to Mesdames J. E. Eldridge, Y. H. Babasin, C. Y. Thomas, Malcom Shores, M. F. Bone, E. S. Page, J. E. Hamblen.

Mrs. Bildstein Is Renamed County Council Leader

Mrs. Claude Bildstein was re-elected chairman of the Wilbarger County Home Demonstration Council Saturday afternoon at a meeting in the County Court room. Mrs. Gertrude Thompson was re-elected vice chairman and Mrs. A. K. Thorn secretary.

The officers were elected following the report of the nominating committee of which Mrs. C. H. Randal was chairman. Mrs. Troy Dobbs, chairman of the 4-H Club sponsors' committee, gave her annual report, and Mrs. W. S. Fitzgerald, exhibit chairman, asked that all scrap books, herbariums, and secretaries' record books be submitted to the office of the agent by Dec. 1. Results of the judging will be announced at the December meeting of the Council.

The Council voted to pay the expenses of a delegate to the annual convention of the Texas Agricultural Association. Mrs. Bildstein appointed committees to complete arrangements for the Council's Christmas party to be given at the Yamparka Club House Dec. 12 with the Fargo club in charge of the program. Approximately 25 members of the Council were present.

Visiting Musicians To Present Program Here

A number of musicians from Altus and Frederick Okla., and Electra, Childress, and Wichita Falls will present a Federation Day program Tuesday evening at 8 o'clock at the First Methodist Church. The program is being sponsored jointly by the Musicians' Club and the Mozart Club, and it will be open to the public.

Miss Selma Baird will be program leader for the evening, and officers of the two music clubs will serve as hostesses. A variety of musical numbers is being planned, and the first public appearance of the choral division of the Musicians' Club will be made. The choral unit will sing several numbers by American composers under the direction of Mrs. L. B. Howard. Mrs. J. J. Cockerell will be accompanist.

SIX VERNON UNITS ARE REPRESENTED AT STATE MEETING

Six of the seven Vernon Parent-Teacher Associations are to be represented at the 28th annual convention of the Texas Congress of Parents and Teachers which is to be held Tuesday and Wednesday at the Texas Hotel in Fort Worth.

A number of entertainments have been planned for delegates by the convention city, including a dinner in the Japanese room, a visit to the Fort Worth Botanical Gardens, and a banquet in the Crystal ball room. Prominent Parent-Teacher officials who will appear on the program are Mrs. M. A. Taylor, president; Mrs. N. S. Holland, State educational director; Mrs. A. Y. Troutman, State director of health; and Mrs. J. K. Pettengill, National first vice president.

Vernon representatives leaving Monday are as follows: Junior High—Mrs. W. N. Martin and Mrs. G. D. Edwards; High School—Mrs. Y. H. Babasin and Mrs. L. D. Turrell; Hawkins—Mrs. H. D. Shive; Parker—Mrs. Elbert May; Central—Mrs. M. E. Barnhill; Shive—Mrs. U. L. Kidd; and City Council of Parent Teacher Associations—Mrs. R. M. Hampton.

White City Club Meets in C. O. Holman Home

Mrs. C. O. Holman was hostess to the White City Home Demonstration Club Friday afternoon at her home. The program feature of the afternoon was a demonstration on kitchen furnishings, including wall and floor coverings, and finish of wood work.

Officers for the new year were elected as follows: Mrs. George White, president; Mrs. Jim Hughes, vice president; Mrs. G. O. Holman, secretary; Mrs. E. S. Dockery, council delegate; Mrs. Roy Hughes, federation delegate; Miss Mary Ann White, reporter. The next meeting will be held at the school, Nov. 27, and at that time a lecture will be given on tuberculosis by a Vernon doctor.

Refreshments were served to Mesdames Roy Hughes, Jim Hughes, E. S. Dockery, George White, L. E. White, J. R. White, and Mesdames Johnson, Mary Ann White, Doris Leggett, and one visitor, Mrs. Pollard of Fort Worth, and the hostess, Mrs. Holman.

Miss Grace Leona Smith Is Bride of Roy Russell

Miss Grace Leona Smith and Roy Russell, both of Vernon, were united in marriage Sunday afternoon at 1 o'clock by Dr. H. H. Hargrove, pastor of the First Baptist Church. The ring ceremony was performed at the pastor's home.

Mrs. Russell wore a brown and gold traveling dress with brown accessories. The couple was attended by Mr. and Mrs. Eula Bourland, Miss Katherine Hall, Miss Leta Mae Kimbrow, and W. T. Smith, Jr. Mrs. Russell is bookkeeper for J. C. Penney Co., and Mr. Russell is employed at Spanish Courts.

HIGH SCHOOL RACE WATCHED

FIVE TEAMS UNDEFEATED
OR UNTIED AS FINALS
IN RACE APPROACH

Dallas, Nov. 15. (AP)—Texas interscholastic League teams dug in with a vim Monday for the final drive down the trail to football glory.

Only one district championship was definitely determined. Only five teams—Amarillo, North Side (Fort Worth), Dallas Tech, Hillsboro, and Kerrville—remained undefeated and untied.

Favorites stood out in nine districts but much can happen. Amarillo led the Panhandle, Childress topped District 2, San Angelo paced District 3, Austin (El Paso) and El Paso High were tied for the top in District 4, Gainesville led District 5, McKinney topped District 6, North Side stepped in front in District 7, Dallas Tech, Dallas Tech was tops in District 8, Gladewater and Longview were tied for the District 9 lead, Lufkin led District 10, Hillsboro paced District 11, Kerrville was out in front in the San Antonio District, Jeff Davis led the Houston District, Beaumont and Port Arthur were tied for the District 14 lead, Corpus Christi and Robstown were deadlocked for the District 15 top and Edinburg led District 16.

Childress found its position in danger after a 10-13 tie with Graham. It put Wichita Falls, definitely back into the race. San Angelo team of an up-and-coming Abilene team that became a real threat with a 14-0 thumping of Breckenridge last week. Abilene plays at Sweetwater Monday.

Dallas Tech still had the toughest Sunset and North Dallas teams to contend with though the latter was jarred from a tie for the top by a 7-6 upset loss to Forest (Dallas) last week. The heating incidentally removed North Dallas from the undefeated, untied list.

At Houston a smashing upset which saw Jeff Davis beat the leading John Reagan team, 32-24, threw the race into a jumble. Either of these two or San Houston can now win the title.

Amarillo, Gainesville, McKinney, North Side, Lufkin, Hillsboro, and Edinburg appeared reasonably safe. Kerrville was definitely "in" as champion of District 12. The rule in that sector is that in case of a tie for the top the title goes to the team that won when the tied leaders met. Thomas Jefferson would be the team to tie Kerrville should Harlandale, the only remaining team to be played by Kerrville, meet the donee. Therefore, Kerrville would be awarded the crown anyway.

New York, Nov. 15. (AP)—Negotiations for the Jimmy Braddock-Joe Louis heavyweight fight in Atlantic City got down to business again Monday after a week-end interruption, with New York in general and Madison Square Garden in particular as the main fronts for action.

Of prime interest was the possibility that Herman (Mugger) Taylor, the Philadelphia promoter who started the whole thing by guaranteeing Heavyweight Champion Braddock \$400,000 for 12-round no-decision go, would post \$100,000 of that amount of evidence of good faith.

Record Averages 750 On Grid Predictions

In its predictions on the outcome of Armistice Day and weekend football games, The Record batted 750 last week. For the season, 76.5 winners have been picked in 111 games for an average of 700.

Contrary to predictions last week were the victories of Quannah, Loyola, Seymour, and Arkansas. A tie resulted in the Childress-Graham game, in which a victory had been predicted for Childress. Actual results, with predictions in parenthesis, follow: Quannah 18, Vernon 13 (7-13); A. & M. 28, San Francisco 14 (14-0); Amarillo 37, Lubbock 6 (20-6); Loyola 29, Tech 7 (7-13); Pampa 14, Borger 7 (12-7); Childress 13, Graham 12 (12-0); Wichita Falls 6, Electra 0 (12-7); Seymour 13, Crowell 6 (6-6); Burkburnett 33, Jackboro 0 (40-0); Arkansas 17, S. M. U. 0 (13-14); Baylor 13, Oklahoma A. & M. 0 (27-0); T. C. U. 26, Centenary 0 (20-6); Minnesota 47, Texas 19 (13-7); A. & M. 20, Utah 7 (19-0); Harding-Simmons 31, Howard Payne 0 (20-0); Rice 34, Sam Houston Teacher 7 (32-0).

Roy Brumbaugh, Duquesne—Scored all points in 13-0 victory over Carnegie.

WILBARGER MEN PLACED
ON DISTRICT COMMITTEES

Superintendent W. T. Lofland of Vernon has been named chairman of the program committee for the 1937 convention of teachers and trustees association of this district by President Joe Humphrey of Olney. Mr. Lofland retired as president of the organization at its recent convention in Wichita Falls.

Kenn Kinard, Oklahoma superintendent, was appointed on the legislative committee, of which Superintendent H. D. Fillers of Wichita Falls is chairman.

The 1937 convention will be held in Wichita Falls late in October.

WASHINGTON HUSKIES AND
RAMS MAY MEET JAN. 1

New York, Nov. 15. (AP)—It looks like Washington's Huskies will be the party of the first part in Pasadena's annual New Year's Day Rose Bowl football classic. Just who will receive the bid to oppose the Western representatives, however, remains enshrouded in considerable doubt.

Northwestern's Wildcats can be reckoned out of the Rose Bowl picture because of the Big Ten Conference rule against post-season games.

With Northwestern eliminated, the choice appears to have narrowed down to Fordham and Pittsburgh in the East, Marquette in the Middle West, and Louisiana State and Alabama in the South.

Fordham perhaps holds the inside track at the moment because the Rams' representative schedule has given them a chance to whip Southern Methodist of the Southwest, St. Mary's of the Far West and Purdue of the Big Ten, as well as held Pitt to a scoreless tie.

Fordham still must get past Georgia this week and New York University on Thanksgiving Day.

Abundant Game in State Is Attracting Nimrods of Texas

Austin, Nov. 15. (AP)—The sharp crack of rifles and boom of shotguns echoed through the hills and valleys of Texas Monday as the state's multitude of hunters scoured the woodlands for deer and turkey.

"The best season in many years," as Will J. Tucker, secretary of the Game, Fish and Oyster Commission, put it, found thousands of outdoor sportsmen up before sunrise to stalk the wily denizens of forest and field.

Excellent conditions for wild game propagation throughout the year provided fat and well-conditioned turkey in thousands of homes Monday night. Gophers are especially abundant.

Tucker estimated more than 20,000 bucks would be killed this season. The deer and turkey seasons which opened Monday will close Dec. 31. Black-tail deer may be shot west of the Pecos until Dec. 1.

CROP INSURANCE MAY
BE LIMITED TO WHEAT

Columbus, Ohio, Nov. 15. (AP)—Crop insurance, if such a law is enacted by Congress, probably will be limited to wheat, Secretary of Agriculture Wallace told the 4th annual meeting of the National Grange here.

A group of Government officials headed by Secretary Wallace, is studying the subject. A report will be made to President Roosevelt and Wallace said he thought the chief executive would make a recommendation to Congress.

Some opposition to crop insurance has been voiced by farmers, Wallace said, on the ground the plan would divert attention from their more vital interest—production control. He added the future program of the Administration may be based on production control with crop insurance as a phase of it.

The plan, the Secretary said, appears to be most practicable in States having the widest diversification of weather conditions which may rain a crop in short time.

During the next months, he said, there will be a period of "consolidation and coordination" in the Department of Agriculture and other departments in the Administration's farm program.

GERMAN PRESS DISCUSSED
AT DALLAS CONVENTION

Dallas, Nov. 15. (AP)—Delegates to the Sigma Delta Chi convention were told that the German press, as a whole, feels little resentment over censorship imposed by the Minister of Propaganda.

"Editors of German papers have seen their country reviving under Hitler's regime and, though they may disagree with many of his policies, they cannot condemn a system which has taken them through a very bad economic and social depression," Roy L. French told the Journalism fraternity members.

French, head of the University of Southern California School of Journalism, explained that material for his address on relations of the press to the Government in Germany had been gathered with little difficulty after he had obtained approval of the Minister of Propaganda.

"Germans feel this way about it," he explained. "They say everybody in the world knows that Adolph Hitler controls the German press, while in other nations boasting an allegedly free press, the publisher may or may not control his paper and the reader can never be quite certain as to who or what determines what he reads."

PLAN FOR MIDWAY ISLAND
AIR BASE UPSETS TOKYO

Tokyo, Nov. 15. (AP)—Lonely Midway Island, United States naval outpost in the Pacific, is a target of Japanese anxiety.

Domei, the Japanese news agency, said Japanese naval circles were "extremely nervous" over reports from Washington, D. C., that the United States contemplates the establishment of a powerful air base on the tiny island.

(Major General Edward M. Markham, chief of United States Army Engineers, recommended that a seaplane base should be established at Midway Island for use in Pan-American Airways' Trans-Pacific Service. (Although described by Navy officials as primarily a commercial project, its potential value from the standpoint of National defense was also stressed.)

Japanese naval officials, Domei said, feared such a step indicated the United States planned to terminate the non-fortification clause of naval treaties.

ROOSEVELT SILENT ON
PROPOSED LEGISLATION

Washington, Nov. 15. (AP)—White House officials said President Roosevelt would refrain from committing himself publicly on any legislative recommendations until he has sent his annual message to Congress.

Beyond the President's own statements that clarifying amendments to the Social Security and Tennessee Valley Authority acts were likely, the President's aide emphasized that nothing of a concrete nature on legislative proposals would be divulged until after Congress meets.

Continuing his budget studies, Mr. Roosevelt called in Daniel W. Bell, acting budget director, for the seventh consecutive morning conference.

TENNESSEE FUGITIVE IS CAPTURED AT EDINBURG

Edinburg, Nov. 15. (AP)—Harrison Welch, alias Odd Davis, an escaped Tennessee convict, was held here Monday for Tennessee officers.

Welch, described by Deputy Sheriff Roy Teer as an escaped murderer, was arrested Sunday with another man. He had been living here the past month. Teer said the second man, employed on a WPA project, was not believed implicated in any crime.

The officer said he understood Welch served six years of a 21 year sentence before escaping from the Brushy Mountain State Prison at Petros, Tenn., 10 weeks ago.

ENGAGEMENT OF TOBY WING
AND PINKY TOMLIN ANNOUNCED

Hollywood, Calif., Nov. 15. (AP)—Pinky Tomlin, the Durant, Okla., actor-singer-composer, blushed royally when his engagement to Toby Wing, screen blonde, was announced at a gay Hollywood cafe party.

The bespectacled musician, who sang his way into the movies not so long ago, has been a frequent escort of Miss Wing, but romantic gossipers failed to speculate on their marriage plans.

the University of Texas, Sunday claimed the "filibuster" championship of the country.

He waged his roommates he could better the late Senator Huey Long's record of 16 hours. At 3:10 a. m. he completed 16 hours and 10 minutes of continuous monologue dealing with astronomy, religion, politics, economics, his life history and numerous other subjects.

AMERICAN BECOMES
NATURALIZED FILIPINO

Manila, P. I., Nov. 15. (AP)—Francis Burton Harrison, former American Governor General of the Philippines, has become a naturalized Filipino.

He took the oath of citizenship at a special ceremony before President Manuel Quezon of the Commonwealth. Vice President Sergio Osmena and 60 National Assemblymen.

Harrison is the first American to become a citizen of the Philippines. A special act of the Assembly made it possible for him to change his citizenship without the usual formalities.

Amateur Surgeon.

Evansville, Wis., Nov. 15. (AP)—Using a jackknife for a scalpel, Herman Tacker, 66, a print shop foreman, removed a bullet imbedded in his leg 17 years. "It was beginning to get sore, so I just sharpened my jackknife and stuck it into my leg and out comes the slug," he said.

AERIAL TOUR COMPLETED AT SAN ANTONIO DINNER

San Antonio, Nov. 15. (AP)—A good will aerial tour, made up of 15 planes carrying 45 persons, was completed Monday.

The planes arrived here late Sunday from Laredo, and the visitors were honored with a banquet given by the San Antonio aeronautical association Sunday night.

The tour, which started at Dallas, included stops at Palestine, Beaumont, Galveston, Corpus Christi, Brownsville, McAllen and Laredo.

TRUCK PROSPECTS IN SOUTH
TEXAS REPORTED IMPROVED

Austin, Nov. 15. (AP)—The United States Department of Agriculture reports prospects for truck crops in South Texas on Nov. 1 were somewhat improved over a month ago.

Wet weather during October was favorable. Fall harvesting was under way and progress was made in winter planting, the Department reported. An abundance of sub-soil moisture was evident.

SOCIETY GIRL SUES OPERA
STAR FOR BREACH PROMISE

San Francisco, Nov. 15. (AP)—Esio Pinza was cast in two roles Sunday—the dashing tenor of the opera Carmen and, by court action of a Florence society girl, the defendant in a \$200,000 breach of promise suit.

The internationally-famed bari-tone, billed for the opera part at a Sunday matinee performance, expressed great perplexity over the court action brought Saturday by Miss Octavia Piechisin.

"It's nonsense—it's all a joke—I thought she was a lovely girl," he exclaimed as service of a summons caused backstage excitement among opera stars.

FLORIDA FIRM LIABLE
FOR \$2,000,000 TAXES

Washington, Nov. 15. (AP)—The Board of Tax Appeals has ruled that Almoors Securities, Inc., a Florida corporation, of which Alfred I. Du Pont, his wife and brother-in-law were principal shareholders, was liable for more than \$2,000,000 in come taxes in 1923 and 1924.

The Board found that the corporation was formed "for the purpose of preventing the imposition of the surtax upon its shareholders through the medium of permitting its gains or profits to be accumulated instead of being divided or distributed" and that it was subject to taxes under the Revenue Act.

COYOTES AND LIONS AWAIT TURKEY DAY BATTLE

Vernon and Wichita Falls are idle in District 2-A football competition this week as they prepare to meet each other in the final games on their schedules here Thanksgiving. Childress, tied, 13-13 by Graham last week, will host to the Olney Cubs, and Electra will play at Graham. Electra was beaten, 6 to 0, last week by Wichita Falls.

Quannah beat Vernon, 13 to 13, on Armistice Day in the only other conference game of the week. Olney was beaten, 7 to 6, by Plainview in a holiday battle.

The only blemish on the Childress conference record to date is the tie with Graham's Steers. A loss this week to Olney would throw the Bobcats a half game behind the Coyotes of Wichita Falls, who have been beaten only by Childress in the 2-A race.

PORKERS WIN OVER PONIES

RAZORBACKS STOP S. M. U. AERIAL CIRCUS, 17-0, IN TITLE GAME

In the only Southwest Conference game played Saturday, Jack Robbins and Arkansas' roughhouse Razorbacks, smothered the famed Southern Methodist Mustangs' aerial circus, featured a smashing ground attack, and completed the downfall of the Methodists by defeating them, 17 to 0. The rangy Arkansans took advantage of every break, intercepting two Mustang passes for touchdowns and recovering a fumble which led to a field goal.

Only two more games remain on the Razorback's schedule, both of which they should win with ease. On Thanksgiving Day they invade the Oklahoma territory to meet the Tulsa University eleven, which has already been defeated by Texas Christian and Texas A. & M. of the Southwest Conference.

The Methodists, out of the picture as far as conference honors go, could regain much of the prestige lost in the past two weeks by winning their next three games which are on successive Saturdays with Baylor, T. C. U., and Rice.

The conference posts, Texas University's Longhorns, engaged in the conference's major international battle Saturday and were soundly trounced by Minnesota to the tune of 47 to 19. The Texans' 19 points were more than had been scored on the Gophers in all their previous games but came late in the game against reserves. Hugh Wolfe, Texas back, was the outstanding performer for the Southwesterners, featuring his play for the afternoon with a 90-yard return of a kickoff for a touchdown in the third quarter. For the Longhorns, the prospects for recouping their ebbs fortunes are extremely gloomy, with Texas A. & M. and Arkansas looming on the horizon of their remaining two games.

In other intersectional tilts the Southwest Conference teams showed up to greater advantage. The touring Texas Aggies, playing their third game in eight days, took their third victory by decisively defeating, 20 to 7, the University of Utah eleven. The aerial attack of the Texans was not up to par, but was more than made up for by the brilliant running of Homer Pitner, halfback. The Aggies meet the luckless Longhorns on Thanksgiving Day for their next game.

The Baylor Bears likewise held aloft the Southwest Conference's colors as they rammed over two touchdowns in the final period to defeat the Oklahoma Aggies, 13 to 0, in the Oklahomaans' "Parents' Day" game. The Bears next Saturday engage the Southern Methodists in what should be an exciting battle.

The Texas Christian Horned Frogs Saturday handed the Centenary Gents their worst defeat of the season, 26 to 0. The Christians next Saturday meet the Rice Owls who used only two regulars last Saturday in defeating the Sam Houston Tech Teachers, 34 to 7.

TEXAS CLINCHES TITLE OF HOLE-IN-ONE CAPITAL

New York, Nov. 16. (AP)—Barring an unexpected windfall of aces from other regions, Texas is the hole-in-one capital of the United States for 1936.

As cold weather forced golfers off the links in the northland and the supply of hole-in-one dropped perceptibly, Texas apparently clinched the ace title with a collection of 109 over the year. The total number of prize shots registered in the Associated Press National Hole-in-One Club reached 1,216 with still a month and a half to go. Thus, better than one of every 12 aces reported was scored by Texans.

Indiana ranked second with 103 as against 94 for New York and 79 for Minnesota, but the Texas supply hasn't been shut off by freezing weather. California ranked fifth with 73. Every state in the union reported one or more aces except Nevada.

Only 19 aces were reported during the last three weeks but performances were just as good as those reported in mid-Summer.

Walter McCallum, golf writer for the Washington Star, canned his tee shot on the 19-yard 9th at the Congressional Club for his third ace in 15 years.

Aces reported included: H. E. Stevens, Orange, Texas, professional, 14th hole, Sunset Grove.

FIVE-IN-ONE, LOCKETT TO PLAY TITLE GAME

The basketball championship of the Red River-Wichita Valley League, Western Division, will be at stake Friday when the South Lockett team meets the Five-in-One club at Five-in-One in the final game of the season for each team. Both clubs have a perfect record, each having won five games and lost none. The winner of this game will meet the winner of the Eastern Division in a play-off for the championship of the league.

Harrold, a member of the Eastern Division, won the championship last year while competing as a Western Division club.

The Five-in-One club retained its perfect record last week by defeating Odell, 17 to 6. The defeat did not drop Odell from third place but lowered that team's percentage to .600 with three wins and two losses in five games.

Kine climbed from sixth to fifth place by downing the last-place Thalia club, 25 to 19. The defeat gave Thalia five losses in as many games.

Oklahoma broke its fourth place tie with Northside, defeating that team, 26 to 13. The loss moved the Northside club into sixth place with only one win in five games.

Standings.

TEXAS CLAY SURVEY MADE

STATE RICH IN RESOURCES FOR DEVELOPMENT OF BRICK INDUSTRY

Austin, Nov. 16. (AP)—Millions of dollars of buried wealth in the form of clay deposits has been the object of investigation by the Texas planning board the past several months. Through its mineralogist, Charles W. Walker, the board started an extensive program of investigation and research calculated to develop the clay industry in the Lone Star State comparable with other States.

Of the \$8,970,000 total value of clay products in the United States last year, only \$274,000 worth was produced in Texas, California, Georgia and Illinois lead the nation in this classification of industry.

Deposits in this State were analyzed and found to be of equal or superior quality to those of the biggest clay-producing States. Rich beds abound in almost all of the 254 counties, and all varieties, except ball clay, were discovered.

J. D. Kerr, railroad geologist, predicted that within a dozen years Texas should have a monopoly of the pottery industry due to the fact that other State's deposits are becoming depleted. Texas has only 10 pottery manufacturers, the majority of which are small shops.

The State scarcely has scratched the surface of a potentially tremendous brick manufacturing industry. say members of the board's mineral resources committee. Where it now has 51 plants there is room for many times that number. Five of these manufacture chimney brick; 43 common brick; 28 face brick; 24 fire brick and four paving brick.

Texas possesses brick, stoneware, tile, slip, porcelain, kaolin, china, paper, refracting and pottery clays. Mineral wool, Fuller's earth and bentonite also are present in huge quantities.

The clay is manufactured into sewer pipe, drain tile, chemicals,

asbestos, munitions, tobacco pipes, modeling clay, toy marbles and other useful articles.

The planning board is preparing a pamphlet detailing the diversified types of clay found in the State, their locations and estimates of the deposits. The sizes of the deposits, in many instances, are unauthentic due to the lack of funds with which to conduct thorough-going surveys.

Christmas Seals serve a dual purpose: They decorate holiday mail and they help fight tuberculosis.

Naval base expansions at Singapore, Malaya, are to cost approximately \$15,500,000.

TONY MANERO ON SPOT IN PINEHURST TOURNAMENT

Pinehurst, N. C., Nov. 16. (AP)—His golfing compatriots turned the pressure on little Tony Manero Monday. The 117 contenders in the qualifying rounds of the National P. G. A. golf championship were tense but the real pressure was on the slender Italian with the black mustache whose "hot" streak won the last American Open with the lowest total in history.

Now the Greensboro, N. C., dark horse has to show the boys his win was no fluke.

"I've tried to bring myself to a peak for this tournament, mentally

and physically," he observed. "I'm satisfied with my game now and I believe I'll do well."

DON'T GAMBLE WITH A COLD

FOR HEALTH. Members of the family go from a heated room into a cold hall or adjoining unheated room; then shivering and chilled, they return to the heated room. This is one almost certain way to catch cold.

Protect your family against sudden changes of temperature. Give them the benefit of healthful, pure, warm air throughout the home. If you have been heating only one or two rooms, don't go through another winter without complete health protection. If you prefer individual unvented room heaters of the open flame type, be sure to use ONE IN EACH ROOM and provide adequate ventilation from slightly opened windows. Keep connecting doors open from one room to another so that a natural circulation of healthful, warm air prevails throughout the home.

Heat your entire house and provide adequate ventilation of pure air... for your health's sake!

... Lone Star Gas System

COMMON colds are dangerous! Don't gamble with them. You will lose more often than you will win. Even if you are lucky and recover from a cold within a few days without loss of time or money, YOU STILL LOSE. Any illness to a member of the family is definitely false economy because colds create a condition of depressed physicality.

This is the age of preventive medicine and medical science has followed the formula that "it is better to keep well than to get well." Therefore, don't gamble. Strike at the root of common colds by eliminating conditions that contribute to "catching cold."

If the temperature of any room in the house is insufficient for comfort it is INADEQUATE

The common cold germ is a constant threat to your well-being during the winter season. If you do catch cold—don't gamble; consult your family doctor before it has an opportunity to undermine your health.

Worthy Debate Topic.

Announcement has been made that American high school students will debate this year upon the desirability of public ownership of utilities. The subject is an important one, and advocates of both sides of the question are vehement in their beliefs. No matter which is the most frequently winning side, the affirmative or the negative, what the high school students say will not bring about public ownership, nor will it defeat the measure if it is the will of the people. The debate, however, will cause the young people to consider the question seriously, and it might even result in contemplation of the matter by adults as well—parents and teachers of the students, debate judges, and possibly the public at large, will read of the debates in the papers.

It is lamentable that only a small fraction of our high school students will give a serious consideration to the question. The matters of taxation, regulation and ownership of utilities, legislative procedure and practice are given too little emphasis in the smattering of civics or government which our public schools offer in their curriculum. In a few years these same students will be paying taxes to reduce a debt we have accumulated in the past four years as a spendthrift Nation. For that reason they should be prepared to face the problem sanely, and debates and extemporaneous speeches should be an excellent means of preparation.

It will be difficult for the debaters to secure accurate and reliable information on the question, because of the maze of propaganda released by Government officials who talk of "power trusts" and of the utilities' men who write of a persecuted industry. The students are due the co-operation and encouragement of the public in securing the truth of the matter.

Indecency Is Needed.

One angle of the part played by the press in the recent presidential campaign has apparently escaped the attention of those who see in the results proof of the weakness of the press as an agency for molding public opinion. There is significance in the fact that a large number of the more important newspapers and magazines opposed the election of President Roosevelt, but that significance does not lie so much in the circumstance that he was elected in spite of this opposition as it does that the minority view was so ably presented.

Whether the people accept the views of the press is not so important. After all, the function of the press is to present both news and interpretation of the news. The people may or may not agree with this interpretation, or at least may not follow the course suggested, but so long as this responsibility is discharged our democracy is on safe grounds.

Instead of condemning the press and ridiculing it for apparent lack of influence the thoughtful citizen will praise it for expressing its views in spite of the popularity of the policies and persons which the press criticized. Criticism will be deserved when the press abandons its convictions and enters only to the opinions of the majority. This is the habit of the average politician and the danger in our present situation is precisely the same that existed in 1925 when the Republican party was so overwhelmingly popular as the Democratic

WARRANT BIDS ASKED NOV. 19

BOARD MAKES PLANS TO SECURE FUNDS FOR PENSION PAYMENT

Austin, Nov. 16. (AP)—The State Board of Control has announced it would receive bids Nov. 19 for \$3,000,000 in deficiency warrants authorized by the Legislature for payment of old age pensions until state taxes begin coming in.

The board, acting as the Old Age Assistance Commission, announced bidders would be required to furnish the entire amount or any part of it at times and in amounts the board determined necessary. The law provides the interest rate shall not exceed 2 1/2 per cent per year.

Orville S. Carpenter, acting director of the Assistance Commission, reiterated that persons now receiving assistance will not be cut from the rolls arbitrarily. The new pension law required a re-investigation of all recipients, whose eligibility was placed solely on the basis of need.

"In my opinion it would be cruel and unfair to drop any aged recipient from the rolls before determining definitely whether or not he is in need," Carpenter said.

Hospital Offer Is Discussed by Dr. T. A. King

Dr. T. A. King today clarified his offer of the King Hospital building and grounds to the citizens of Wilbarger County in a detailed statement regarding the matter. His statement follows:

"To the people of Wilbarger County: "It bites to the quick when one is compelled to come to the defense of the motives actuating a gift for a worthy purpose. The poet who sang of man's inhumanity to man must have suffered a similar experience. If I have committed a crime in my humble attempt to help raise the standard of hospital services in this county, then convict me of Hell's greatest crime, for my efforts shall continue toward this one objective. I had no intention of raising my voice either pro or con in the discussion of this issue before the people but since many of the insinuations reflect upon my sense of honor and other statements being made with no regard to facts, I would be a coward not to step into the front trenches of this discussion. Therefore, I will handle these whisperings separately.

"The first rumor has it that I am attempting to give the county a good hospital building in order to unload on it a quantity of worn-out equipment. If this be true, then I believe you will admit that I am a poor racketeer to give the county a costly building in order to pass unto it a small quantity of junk material. Those of you who may believe this, should, for the public's safety, have me adjudged insane. It would be laughable did it not carry a scorpion's sting."

"To those honestly believing that a county hospital would be a bad financial venture, I gladly give you the right to your opinion. To those honestly believing that the public health can best be served through small privately owned hospitals, I give them the right to their opinion. To those who honestly believe that my motive is selfish, deceptive, and that I would rob my people, to them I give the right to appraise my character.

"And to those who, through false propaganda, have come to consider my motive ulterior and selfish, I can forgive them, but to those few who because of prejudice, selfishness, and a lack of that driving urge for eternal advancement and betterment, would attempt to defeat the worthy project by questioning my motives and assassinating my character, I would beg them to come up out of the stale ponds of the past and take a refreshing bath in the placid, sparkling sea of human fairness, human kindness and human progress."

"Now, let's forget these irrelevant remarks and get down to facts. Included among the equipment is to be found: First, the highest priced diagnostic x-ray unit in the State of Texas, costing installed, \$5,000; second, a new gas anesthetic machine, costing \$550; third, a new matabolism machine, costing \$225; fourth, a practically new oxygen tent, costing \$250; fifth, there are new supplies consisting of sheets, pillow cases, bed spreads, gowns, bandages, catgut, medicines and new instruments, amounting to over \$1,000.

"These items give a total of \$7,725 worth of new, modern equipment and supplies, leaving only a balance of \$5,675 of the full amount asked for the entire equipment and instruments in the operating room, sterilizer, laboratory, kitchen, dining room, nursery, delivery room, and twenty-five furnished rooms, many of which run over \$200 per room, as original cost. Does this smell of racketeering?"

"I told the Commissioners Court that I would not know whether I could throw the equipment on the open market for this much money unless I could find an unfurnished hospital seeking a complete outfit, but that in case the county accepted the proposition it could not possibly go into the open market and get similar equipment for anything like this amount of money.

"For fear that these facts may not hold this rumor, I want to hog-tie it with a ball and chain by making the county this proposition. If, after the county operates the institution for three years, it is decided by the people that the venture is unprofitable, from both a financial and service standpoint, then I agree to take back the building and equipment and refund the entire price paid for the equipment. The building will be good collateral protecting the \$13,500. Does this proposition strike you as racketeering?"

"The second rumor is more sinister and is based upon a higher plane. It contends that the hospitals in Vernon have been run at a loss and that it naturally follows that the county would fall into the same predicament. Such is not a fact. The hospitals, as they have been run in Vernon, have been directly or indirectly responsible for the major profits to the owners.

"To clip the wings of this rumor, I wish to make the county a second proposition: If the people will be willing and satisfied to operate the hospital under the same standards common to the hospitals in this county, and if the county will continue to pay the hospital for all charity cases at the same rate and in the same amount as it is paying at the present, then I will bind myself by a duly executed bond to pay the county not less than \$2,000 annually, provided that they will give me all proceeds above this amount. This would reduce the present hospital expense of the county by the sum of \$2,000. Does this strike you as racketeering? Institutions built for profit are not operated indefinitely at a loss.

"The third and last major rumor is without any basis of fact. It raises the issue that for the county to operate a recognized standardized hospital, would be detrimental to the existence of all private institutions. Cities have and are built by competing enterprises and the rule is, the keener the competition, the greater these enterprises grow, both in size and in standards of efficiency, thereby automatically extending the horizon of their common trade territory. No doubt, standards will be raised, but in so doing, confidence will be enhanced, thus increasing the clientele of each institution.

"If I may express a lofty conceit, without my sincerity being questioned, I wish to state that individuals and institutions have had no part in shaping or directing my actions. These institutions have been prompted and actuated by desires which have smoldered in my thoughts for many years and with their fulfillment will come better service for the public and brighter prospects for the future of the medical fraternity of our county. I believe that the explanation given is sufficient to overcome the falsity of all unfounded rumors and to place the major issue in a better light for public understanding.

W. D. DIXON IN NEW POSITION

FORMER RESIDENT HERE IS NEW EDITOR OF WICHITA POST

W. D. Dixon, former managing editor of The Vernon Daily Record, assumed duties Monday morning as editor of the Wichita Falls Post. He left the Record in February of this year to become secretary of the Quannah Chamber of Commerce and had since served in that position. Before going to Quannah he had been with The Record 10 years.

Mr. Dixon replaces Joe Strom who has been employed as managing editor and editorial writer of the Post since its beginning several months ago. In the past two weeks, Mr. Strom had also performed the additional duties of news editor.

NECHES RIVER IMPROVEMENT IS TERMED 'INADVISABLE'

Washington, Nov. 14. (AP)—Improvement of the Neches River above Beaumont was termed "inadvisable at this time" by the Army Engineers in a report made public by the House River and Harbors Committee. Improvement of the 47 mile stretch of the river from Beaumont to Bearmans had been requested by one individual, the report said, to facilitate exploitation of gravel deposits at Bearmans.

The Army Engineers said the cities of Beaumont and Port Arthur together with representatives of the rice and petroleum industries had opposed the project on the ground it would adversely affect their water supplies.

The district engineer reported the commercial possibilities of the improvement were limited and its cost "entirely incommensurate" with the benefits.

CORSICANA BANK EMPLOYEE CHARGED WITH EMBEZZLEMENT

Dallas, Nov. 16. (AP)—Roy J. Leeds, employee of the First National Bank of Corsicana, pleaded guilty here before U. S. Commissioner Lee Smith to embezzling \$3,773.70 from the bank.

Commissioner Smith set bond at \$5,000. Leeds did not immediately post the surety, but said he had friends en route here from Corsicana who would make the bond.

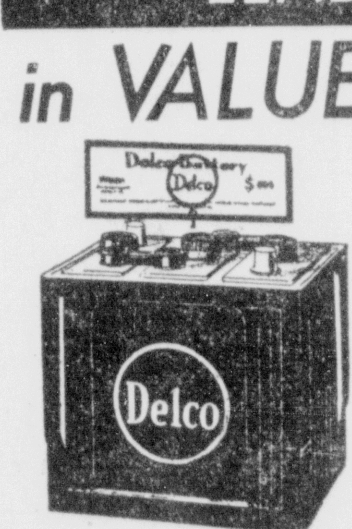

The alleged offense occurred about Sept. 15 of this year, according to charges filed in the case.

HALF-ACRE in EDEN

By Robert Dickson

Copyright, NEA Service, Inc.

BEGIN HERE TODAY

MARCIA CANFIELD, daughter of wealthy PHILIP CANFIELD, knows that the neighborhood is buzzing with gossip over the sudden disappearance of FRANK KENDRICK, whose engagement to Marcia has been announced.

Since his disappearance, a shortage in Kendrick's business accounts has been discovered.

Refusing to let others know how deeply she has been hurt, Marcia goes to the dramatic club try-outs and is given the leading part in the forthcoming play, DOROTHY OSBORN, who dislikes Marcia, is given a less important part.

Afterward Marcia, her friend, HELEN WADDELL, and several others stop at TONY STELLICCI's restaurant. Four men enter and stage a holdup. Marcia's purse, containing a ring that was her mother's, is taken.

Next day Helen and Marcia discuss the holdup. Helen confesses that she has heard from her cousin, JOHN WADDELL, that Frank Kendrick is in Chicago.

NOW GO ON WITH THE STORY

CHAPTER V

Marcia did not speak until the Waddells' maid had left coffee on a low table where she and Helen sat before the fireplace. After two months of enduring the knowledge of Frank Kendrick's theft and disappearance, Helen's news that her whereabouts had been discovered, by mere chance, came as a sudden and unexpected blow, paralyzing her coherent thought.

An automaton could not have added sugar and cream to a cup with less consciousness than did Marcia. She stirred, drank, put down the cup, with a hand become mechanical. Yet her first words to Helen indicated that her confusion was already settling, that she was seeking a channel leading toward a solution of the problem presented.

"The first thing that popped into my mind, just now," she said slowly, "was the possibility of amnesia. That's always the pleasantest explanation. But I think the embezzlement rule that out."

"Frank as a busboy! What does that indicate to you, Helen? Not only that he's short of money—stranded; but that he is living in desperation, feeling himself cut off not only from his old life, but from every manner of his old life. I pity him with all my heart!"

"For weeks," Marcia continued, looking into the fire, "all of us who knew Frank have been wondering where on earth he could be. Now that's found, who is clever enough to know what to do about him?"

Helen nodded, but was silent.

"I mean," Marcia said, "that there is a problem of procedure, to say the least. Your information—our information, now—properly belongs to a lot of people. To the people who lost money through him."

"We really owe it to all those people to tell them. But, then what? Should they hold a meeting to decide what to do, since all have an equal interest and therefore equal rights? Somehow, the idea is ridiculous."

"Should you and I handle the thing ourselves? Or should we take somebody else or two or three—somebody else into our confidence?"

But Helen was staring into the fire, as perplexed as Marcia herself.

"As Frank's jilted fiancée I was not supposed to know," Marcia went on, but I do know, that a couple of weeks after he went away a group of people who had lost money through him made inquiries about the possibility of getting him back here in case he should be found—just as he has been found now. Their idea was that they'd like to compel him to come home to straighten out his affairs and to help them salvage what they could, without bringing charges against him. In other words, if he were found and wouldn't return voluntarily, they wanted the State to step in, bring him back and then step out again. But they learned that the state would very quickly take charge of the whole affair if it were ever taken to the authorities. And that would certainly mean prosecution, which no one wanted."

Helen nodded again.

"Which means," she responded, "that although it isn't what you'd call a strictly private matter, still

it is strictly unofficial, and no one concerned wants to make it other than a question of procedure. . . . Marcia, that is to say, a delicate case for delicate words. Plainly speaking, I feel that you're the person most concerned and therefore most to be considered. What do you want to do? Wouldn't it be best to drop the whole thing? Wouldn't it save all sorts of pain and trouble and ill feeling, to you most of all, to keep this news to ourselves? Why shouldn't we send word to Frank, through my cousin in Chicago, that we alone know where he is and that we'll keep the secret, while he makes amends as best he can?"

Marcia leaned back in her chair and closed her eyes wearily. Just to think was becoming more and more painful, but she must go on with it.

"I'd have a hard time writing down just what I do feel," she said with a half-smile. "Credit what I say or not, but I can't manage to feel that I am the person most concerned or most likely to be hurt. I know the idea behind what you suggest—that because we were engaged I love him, and that because I love him I would be, perhaps, the chief victim of his returning to face the music."

"But—oh, I can't explain it, Helen, except to say that since he went away I haven't been worried over the man I was going to marry; I have been worried over a friend who did something terribly wrong and ran away from it! Say that I've stopped loving him, for whatever reason; say that I never loved him, but only imagine I did—call it either of those things, or anything else. Right now I don't know. I really don't know!"

"The only thing clear in my mind is this: He must come back. He must help repair the damage he caused. He must do it for his own sake, if for no other reason. Frank and I were friends for so long and he always seemed splendid. What happened to him, what sort of panic he may have got into before he went so completely haywire, I don't know, but things certainly must be maneuvered so that he can get back his self-respect, pay off the losses of people who trusted him. . . . Helen, he is the person most to be considered! And we would be as great cowards as he seems to have been if we let him down now, when he so needs propping up. No matter how the treatment may hurt him," "Do you know," said Helen, "I feel like shaking your hand? You're a good deal of a Spartan. But since you have demonstrated that you can take it, let me continue in candid vein and remind you of the village we live in. Don't you imagine you'll suffer from the gossip? Heaven only knows how the thing has been kept as secret as has been done. There's no use denying that rumors are going around everywhere, and rumors breed faster and faster. They'd feed on Frank's return, even more than on his absence. And the gossip can't exclude you."

"The gossip has included me already," Marcia reminded her. "It was a bit of a task to face so many people at the Stagecraft Guild try-outs last night, as a matter of fact. Probably I don't like to be gossiped about more than anyone else does, but it's all in a lifetime, literally."

"Right. And what's to be done?"

"After all my talk, I don't know. If you don't mind, I think I'll ask Dad's advice. He's a clever father. He'll know what to do and how to do it, if anybody does."

She stood up.

"Meanwhile, let's pretend the problem doesn't exist. Shall we go on over to Mrs. Henderson's for our play scripts?"

Early in the afternoon Marcia, at home, was called to the telephone. Her father's secretary was on the wire.

"Mr. Canfield had to leave on a matter in Miami. He just had time to catch the plane. He wanted me to tell you that he would call you by long distance, at the first opportunity, and let you know just how long he would be away. A week or 10 days, he thought."

Marcia remained beside the telephone, considering. A week or 10 days. Much too long a time to delay in Frank's case. Without her father's advice, how could she act? Suddenly she lifted the receiver

again and called a New York number.

"I want the first available seat on a plane to Chicago," Marcia said into the transmitter.

In 20 minutes she had packed a bag, left orders with the servants, and was in the car, being driven to the station to take the train to New York. With 60 seconds to spare, the chauffeur pulled up alongside the platform and Marcia stepped down. No time to buy a ticket in the station; she would pay on

the train. Fifty-five seconds. She started across the platform, the chauffeur following with her bag. Fifty seconds.

"Well, hello, Marcia!"

It was Dorothy Osborn. The acid Dorothy, who had commented, for the benefit of all at the Stagecraft Guild tryouts, concerning Marcia's romance with Frank Kendrick.

Forty-five seconds.

"Hello, Dorothy."

"Leaving us?"

"For a day or so."

Forty seconds.

"Where you going?"

"Oh—Schenectady."

"Oh! Didn't know you knew anybody there."

"Didn't you? In Schenectady? Oh, yes. My aunt—Aunt Priscilla. The one who's out on parole."

"Parole? Your aunt! My dear—"

"Homicide," said Marcia. "But she didn't know the gun was loaded."

"All aboard!" said a trainman. (To Be Continued)

THIS CURIOUS WORLD By William Ferguson

INSECTS CANNOT DESTROY THE GIANT SEQUOIA TREES! WHEN AN INSECT DRILLS INTO THE BARK, A TANNIN-LIKE DUST CHOKES IT.

NO ONE YET HAS BEEN ABLE TO PROVE OR DISPROVE CONCLUSIVELY THE OFT-HEARD STATEMENT THAT YOUNG SNAKES SOMETIMES SEEK SHELTER IN THEIR MOTHERS' MOUTHS.

THE sequoia is almost indestructible. The armor of thick bark acts as an asbestos protection against fire, and as insulation against frost and freezing. The wood seems to be almost immune against rot, and a thick healing sap quickly heals up any scar.

The saddest sign
on road or street—
"Concrete Ends—400 ft."

**For Safety's sake
PAVE THE GAPS WITH
Concrete**

Why do state highway departments warn the public: "Concrete pavement ends"?

Because it is universally accepted that speeds which are reasonable and safe on concrete become dangerous on other surfaces.

To save lives, to prevent accidents . . . demand concrete all the way.

True and even, it has no high crown—it is usable to its full width. Brakes are at their best on its gritty non-skid surface. Its light gray color and sharply defined edges give high visibility at night. Any car is a better car on concrete.

And concrete saves money for motorists and for taxpayers. Insist on concrete for your roads.

CCC WORK ON FORESTS DUE

**ENROLLEES CONCENTRATE
WORK ON EAST TEXAS
REFORESTATION**

Washington, Nov. 16. (AP)—A busy season awaits 28,000 CCC enrollees in 17 camps on national, state and private lands in Texas, according to a report from Joseph C. Kircher, Southern Regional Forester for the U. S. Forest Service, Atlanta, Georgia, in announcing plans for the eighth enrollment period for the CCC personnel assigned to Region 8 of the U. S. Forest Service.

The work ahead covers many kinds of conservation activities which will be of definite, practical value to the State of Texas. These CCC boys will continue the development and protection of the four newly created National Forests in Texas, in addition to the work to be done on state and private lands.

One project which can be classed as a major achievement of the CCC during the next few months will be the planting of approximately 15,000,000 pine seedlings for the reforestation of 15,000 acres of now barren land in the commercial timber belt of East Texas where the Federal Government and the Texas Forest Service have cooperated in forest fire protection for years.

THALIA GIRL REFINISHES ROOM WHEN CLOSET READY

Crowell, Nov. 16. (AP)—A built-in closet led Maxine Fletcher of the Thalia Girls' 4-H Club to make plans for refinishing her entire room, according to Miss Myrna Holman, Home Demonstration Agent of Ford County. Maxine made her closet two by six feet, and the upper part of the closet opens into another room where it is used for storing quilts. One long shelf across the top, and four down one side, furnish space for storing folded articles, while a round wooden box is used for soiled clothing. A series of small boxes for minor articles are arranged on the closet shelves.

The rod and shoe rack are painted white, while the inside of the closet is covered with a light shade of wallpaper. The entire closet was made without any cash outlay as scrap material was used throughout.

BRITAIN AND U. S. TO TALK ON PURCHASE OF SECURITIES

London, Nov. 16. (AP)—The British Government will start discussions with the United States in the near future on President Roosevelt's plan to restrict the foreign purchase of American securities, informed quarters said here.

Impending discussions, informed sources said, will cover the entire field of international monetary relations, including the recent tri-power agreement of the United States, Great Britain and France for maintaining exchange levels.

Landons in Cheerful Final Pose

Conceding the re-election of President Roosevelt, Governor Landon reconsidered his ruling against last night pictures and posed with cameramen for this NEA-Acme telephoto. Leading Mrs. Landon before a large sunflower which had been placed against a mirror in the executive mansion at Topeka, the Republican candidate said, "Theo, come and get your picture 'took' while you've got a chance." Turning to photographers, he laughed and said, "Go ahead; shoot!" and they shot.

SEAPLANE HARBORS AT MIDWAY AND WAKE PLANNED

Washington, Nov. 16. (AP)—The State Department said here that the proposed construction of seaplane harbors at Midway and Wake Islands, trans-Pacific aviation stepping stones, was devoid of military significance.

In this opinion, Chairman McReynolds of the House foreign affairs committee concurred.

The War Department disclosed at the same time that Army Engineers had recommended construction of a \$1,000,000 base at Wake, in addition to a \$500,000 project at Midway.

Also, the office of the Speaker of the House said the Engineers had filed a number of confidential recommendations for development of Midway.

INGENIOUS "ALARM CLOCK" BRINGS SUSPICION ON NEGRO

Oklahoma City, Nov. 16. (AP)—Police found a Negro cab driver here in possession of an electrical gadget exactly like those used by automobile thieves to wire ignition switches, and start a car without a key.

His explanation—and demonstration—cleared him of any suspicion. He showed the officers how he wrapped one end of a wire around his leg and connected another wire

to a telephone. When the Negro would doze off during the long night hours and the telephone would ring, the apparatus would deliver a shock to his leg sufficient to awaken him.

UNIFORM TAX RATE ON TOBACCO ADVOCATED

Topeka, Nov. 16. (AP)—A more uniform tax rate levied by the States on tobacco was advocated here by speakers at a meeting of the National Tobacco Tax Conference at which 10 States were represented.

The rate on cigars, for example, ranges from two cents a package in Kansas to five cents in South Carolina, speakers said.

A. L. Crowe, Georgia Commissioner of Revenue, said it was essential that uniformity be established "so there'll be no particular advantage in going across State lines to buy tobacco products."

Cotton Consumption Increases.

Washington, Nov. 16. (AP)—Cotton consumed during October is reported by the Census Bureau to have totaled 646,499 bales of lint and 72,546 of linters, compared with 625,727 and 67,559 during September this year, and 592,540 and 67,279 during October last year.

The normal tide wave is about four feet high in the open ocean.

NEW STUDY OF TRAVIS OFFERED IN ARTICLE

Austin, Nov. 16.—That William Barret Travis, gallant leader of the martyr band at the Alamo, visualized himself as "the liberator of the factual information concerning his aims, ambitions and emotions by the most recent commentator on this Texas hero. Robert H. Williams, Jr., of McGregor, has contributed an article, "Travis—A Potential Sam Houston," to the October issue of the Southwestern Historical Quarterly published by the Texas State Historical Association, with members of the history staff of the University of Texas as editors.

In this article, McGregor cites voluminous writings that have been published in recent years concerning the Alamo and its leader, but complains of the utter lack of any introspective study of Travis' personal thoughts.

"This lack is easily explained," the commentator went on. "Travis, though at times fiery and impulsive, apparently kept his own counsel on personal matters, exposing such emotions as ambition and disillusionment only to the more silent Bonham, if to anyone at all. Furthermore, Travis was scarcely to be called an outstanding figure until the last few days of his life—and who was there to gather historical data about him in perturbed revolutionary Texas?"

TEXAS INSTRUCTOR GOES TO SCIENTIFIC MEETINGS

Austin, Nov. 16.—Dr. Marie B. Morrow, instructor in botany and bacteriology at The University of Texas, will attend two national meetings of scientific societies in the East during the week of Nov. 16. She will contribute to the program of each. One paper on which she collaborated with Dr. Charles Thom of Washington, D. C., will deal with soil microbiology and will be presented before the American Society of Agronomists in Washington. The other, on "Molds in the Etiology of Asthma and Hay Fever," has been prepared in collaboration with Dr. Homer C. Prince of Galveston and Houston. It will be read by Dr. Prince before the Southern Medical Association in Baltimore.

Carl W. Held Resigns.
Dallas, Nov. 16.—Carl W. Held has resigned as representative of the Texas Centennial's Livestock and Agricultural Department, explaining he would take an editorial position with the Oklahoma City News.

[[QUESTIONS THAT ARE ASKED ABOUT BANKING]]

"How does a Bank handle
out-of-town checks?"

WHEN you deposit a check written on a distant bank, your bank ordinarily routes it for prompt collection to a city correspondent bank with which it maintains an account, or to a Federal Reserve Bank. The following steps are usually taken:

1. The account of your bank is credited with the amount of the check at the correspondent bank or Federal Reserve Bank.
2. The check is charged against the account of the bank on which it is written.
3. It is sent to the bank on which it is written, and charged by it against the account of the person or firm which issued it.
4. The amount is then credited to your account as soon as advices are received that the check has been honored.
